

FOR IMMEDIATE RELEASE:

## **ImageFIRST Exhibiting ScrubVAULT System at AHE 2018 Conference**

King of Prussia, PA – August 24, 2018 – ImageFIRST Healthcare Laundry Specialists will be exhibiting their new ScrubVAULT System at the Association for the Healthcare Environment's (AHE) 2018 Exchange Conference in Columbus, Ohio from September 24 to September 25.

ImageFIRST will be conducting live demonstrations of the ScrubVAULT System at booth #214. AHE attendees will be able to interact with the ScrubVAULT System first-hand and learn how the system can be paired with a fully-managed scrub program for comprehensive inventory management to control costs, make staff accountable, and be compliant.

The ScrubVAULT System is an easy-to-use, compact cabinet that securely stores, dispenses and tracks the distribution of scrubs while providing full visibility of inventory and usage. The System works with ImageFIRST scrubs chipped with radio-frequency identification (RFID) technology for accurate tracking and traceability. This new system adds to ImageFIRST's portfolio of laundry and linen services tailored specifically to the healthcare industry. To find out more about the ScrubVAULT System, visit [www.imagefirst.com/scrubvault](http://www.imagefirst.com/scrubvault).

ImageFIRST will also be exhibiting at the Medical Group Management Association (MGMA) 2018 Annual Conference in Boston, Massachusetts from September 30 to October 2.

At MGMA, ImageFIRST will provide attendees information regarding their fully-managed scrub and lab coat solutions, including information about the ScrubVAULT System. These programs leverage RFID technology to help health system departments and medical offices keep their scrub and lab coat inventory under control. Medical professionals who visit ImageFIRST at booth #1118 will have an opportunity to take their picture with ImageFIRST mascot Violet the Cow, as well as win a variety of prizes.
